DETAILED ACTION

Allowable Subject Matter

Claims 1-17 are allowed over the prior art of record as amended in the 3/12/2009 reply.

The following is an examiner's statement of reasons for allowance: The claims in this application have been allowed because the prior art of record fails to disclose either singly or in combination the claimed device of a fenestrated bone screw and insert disposed therein are provided for the delivery of medicants to bone. The bone screw provides a method to strengthen and repair damaged bones in conjunction with an insert delivering a continuous or regulated amount of medicant to a desired location within the bone such as a fracture site.

The closest prior art of record is Spievack et al. (USPN5,871,484) and Wilcox et al. (USPN5,681,289), however these references do not disclose the device as claimed or described above.

Regarding claims 1 and 13, the closest prior art of record fails to teach among all the limitations or render obvious a bone screw with fenestrations and an insert with one or more insert fenestrations disposed along a cannulated portion of the insert between the two ends of the insert, with the insert being movable between: a first position with none of the one or more insert fenestrations aligning with the one or more bone screw fenestrations so that at least a portion of the shaft of the insert substantially prevents material from entering the cannulated portion of the bone-screw through the one or more bone screw fenestrations; and a second position wherein the insert provides a

delivery pathway for the substance between at least one end of the bone screw and the at least one bone- screw fenestration.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
